- **Grade 6 PAT Information:** Alberta Education has provided important information regarding the 2024/25 Grade 6 Provincial Achievement Tests (PATs).

Grade 6 PATs in English Language Arts and Literature (ELAL) and Mathematics **will not** be administered in May and June 2025. Grade 6 PATs in social studies and science will continue as planned.

As you are aware, this school year saw mandatory implementation of the new curriculum in ELAL and Mathematics for Grade 6. In response to feedback received from school authorities, Grade 6 PATs in ELAL and Mathematics will not be administered this spring.

In their place, Alberta Education will be **field testing** newly developed assessments in these subjects. Field testing will take place between April and June 2024. The process of field testing determines the validity and reliability of questions that are in the development phase. For this reason, field testing results are not reported publicly; however, teachers will have the opportunity to score their field tests locally so they can gain some insight into student growth and achievement.

If your child's class will be participating in Grade 6 PAT field testing, the classroom teacher will communicate with you once dates and times are confirmed.

- **May Mental Health Minute from the Wellness Team - Hats On! For Mental Health** is Wednesday, May 7. Everyone is invited to wear a hat to raise awareness of the importance of good mental health. We can't educate children properly if their physical and mental health needs aren't meant. That's why the Alberta Teachers' Association, the Alberta Division of the Canadian Mental Health Association (CMHA) and Global Television have partnered to keep mental health top of mind in the classroom. <https://www.youtube.com/watch?v=PvqdQyzFVv4&t=26s>

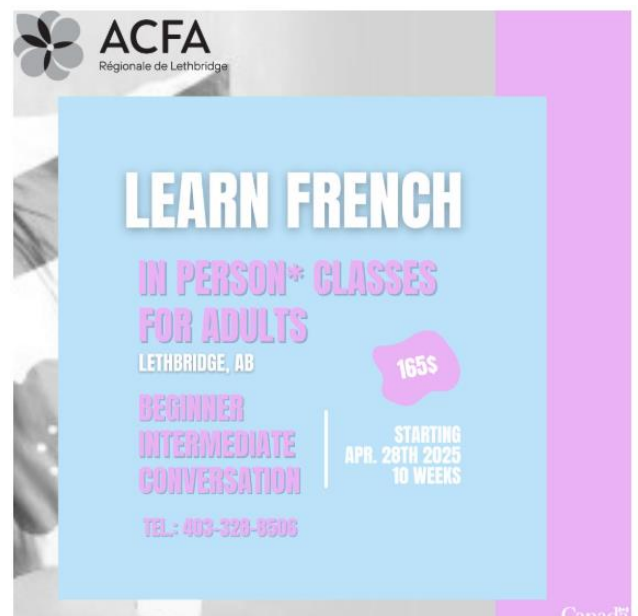

- **Mental Health Week** Every year, the Canadian Mental Health Association dedicates a week in May to raise the awareness of Mental Health (May 5-11, 2025). The theme for this year is “There’s More To Me” and how we can connect with others through open and honest conversations. Sometimes, people wear masks to hide who they really are and to fit in. We want to encourage students to work together to have a school where people can be themselves, without judgement. On Wednesday, wearing any hat for “Hats On! for Mental Health” is one way to show support for mental health and supporting each other in our school. There is more to people than what meets the eye! The CMHA website includes resources to learn more and support this important week: <https://cmha.ca/mental-health-week/toolkits/>.
- Please do not hesitate to reach out to the Wellness Team (Christine.oviatt@lethsd.ab.ca or Cheryl.smith@lethsd.ab.ca) if you would like additional resources on social-emotional topics or where to access mental health support in our community.

- On **Monday, May 12th** from **6 pm – 645 pm** in the **Learning Commons at GPMS**, **Dr. Robbin Gibb**, a neuroscience researcher at the University of Lethbridge, has conducted extensive work on brain development and how early experiences shape cognitive abilities in the teenage brain. Her research emphasizes the importance of nurturing environments and enriched learning experiences in fostering critical thinking skills in adolescents. Gibb highlights that adolescence is a key period of brain plasticity, during which targeted educational strategies can significantly influence cognitive growth. By applying neuroscience-informed practices in classrooms, educator and parents/guardians we hope to better support the development of analytical and problem-solving skills in their students and children.
